

Dear Group Leader,

Outdoor education week is on its way! Undoubtedly you are as excited about your week as your students. We are also looking forward to spending the week with you and your fellow teachers/chaperones. We are hoping that this week will help your students grow closer to God, and expand their relationships with you and their classmates.

Taking the time to determine the goals or focus of the program you want for your students will be a step toward a successful week. Are you wanting to focus on the academic, social, or a mixture? Please realize that the time of year that you attend outdoor school will affect these goals as well. Let us know how we can tailor our program to assist you in meeting your goals for your students' experience.

The downloads on this page are designed to help you prepare. Please read through each link carefully so that you will be oriented to the outdoor school program. All of your preparation prior to outdoor school will reap many positive results. Thank you for your dedication and commitment to your students, and we look forward to working with you!

Blessings,
Genesis Account Staff
